West Brookfield Feby 21. 1844

Rev Samuel May

Dear Sir, We have harnessed ourselves in this region for two weeks fatigue duty — You will probably see our arrangments in the Liberator if you do not see some advertisements which I have sent to your place by the way of friend Firths Depot.

You know that the Board of Managers announced your name in their Circular as one from whom assistance might be expected in carrying on the conventions. I hope you will not fail to be at Spencer and I should be much gratified to see you at each of the meetings announced in our Placeard. For one "I go bound in the Spirit, not knowing the things that shall befall me". I have been over the ground once to make arrangments & met with but a cold reception. There is surely a Savage propensity in mankind which needs something more than American Republicanism or sectarian religion to rectify. My courage flatters more in the midst of Fanes & steeples consecrated to popular religion than in the most uncultivated & unchristianized dales with whom I meet. My faith in truth is strong, and it may be too strong for my physical powers

Sincerely Yours John M Fisk
